## Closings/Delays

With the winter weather here, parents should be reminded that in the event school is cancelled or delayed, closing or delay information will be available on WTAP-TV, <http://www.wtap.com>, all local radio stations, and the school voicemail system. In order to access the school voicemail, call the school number at 304.375.2000 and dial zero. A recorded message will give the details of any closings.

Also, parents who signed up to receive text messages will receive a text message from the school alerting of such situations. Any parent who wishes to receive a text message should call the school office or log on to InfoDirect and complete the information. In order to receive a text message, the cell carrier is needed. Please note — students cannot receive these text messages at this time as the system only supports parents' cell numbers.

Contact the school office for answers to any questions you have regarding these procedures.

## Online Math Help

WCCS has signed up for a free trial of Catch-up Math through Feb. 20, 2012. Catch-up Math is designed by the same company as Hot-math.com which many students grades 7-12 have used. Catch-up Math identifies and fills in learning gaps, online, for students in middle school through college. Catch-up Math is easy to use, highly effective, and affordable, but FREE with our trial, through 2/20/12. Catch-up Math is an intervention program for struggling students and for review and test preparation for all students. The programs cover Grades 6-7 Math, Algebra Readiness, Pre-Algebra, Algebra 1 and 2, and Geometry. Students take online quizzes that diagnose learning gaps. Prescribed review topics are explained by video tutorials, written lessons, animations, games and guided practice problems.

Registering your student is quick and easy. The username is wccs121, and the group password will depend on the class you are in. For example, if you have Mrs. Garrett 2nd period, the group password is Garrett2nd; if you have Mr. Conaway 2nd period you will use Conaway2nd; for 6th grade, the password is Kratzer. Once you login, you can set up your own personal account. Check it out at <http://catchupmath.com>!
